

About the Sector

The Health Care sector helps clients maintain and improve wellbeing. Services can include medical care, diagnosis & treatment, welfare, child protection, vocational rehabilitation, and community housing. The industries in this sector can be on a continuum, starting with those establishments providing medical care exclusively, continuing with those providing health care and social assistance, and finally finishing with those providing only social assistance.

About the Labor Market Intelligence Center

The Dallas College Labor Market Intelligence Center (LMIC) was established in 2015 to cultivate a healthy workforce ecosystem in the Dallas-Fort Worth metroplex. The team conducts research revolving around the local labor market, program alignment, and socioeconomic barriers that impact Dallas College students and the local community. The LMIC is committed to developing strategic research partnerships with internal partners and external organizations to deepen understanding of complex problems that impact Dallas College students.
